

REMARKS

A telephonic interview was conducted between the Examiner Latrice Byrd, Supervisory Patent Examiner Nathan J. Newhouse, and applicant's counsel Alexandre Daoust on February 3, 2009.

A sample of a paper dispenser as shown in the figures (exhibit) was provided to the examiner prior to the interview as well as a draft amendment. Claims 1 to 10 were discussed to overcome prior art references by Swink USPN (US 5,673,847). Although a formal agreement was not reached during the interview, conclusive discussions led to the filing of the amendment and response. The examiner will conduct a new search to verify whether the claims as amended are patentable.

If the new search does not uncover additional references, a notice of allowance is expected.

Respectfully submitted,
Date: 27 February 2009

/Alexandre Daoust/
